Dennis, please see the note below - I think this really needs to be looked into. Will you give me a call when you have a moment? Thanks.

Bert Garcia, Director
Ecosystems Protection Program
EPA Region 8
303.312.6670

Bert,

I will have the data table put together by Monday that captures all the sampling that has been conducted up to this point. I have been in contact with the State Air Program; they provided some additional information. I have not heard back from anyone in the Water Program.

I just received the email below:

Tricia Rios Pfeiffer, Engineer
U.S. Environmental Protection Agency-Region8
Watershed & Aquifer Protection Unit
1595 Wynkoop Street
MC: EP-EPR
Denver, Colorado 80202

P: 303-312-6271
P: 866-457-2690 ext 312-6271
F: 303-312-7206

Subject: water

Water update-Had to take a shower this morning at home, I have 3 sick dogs with bronchitis, 1 I have to take back to the vet today, I don't think he is going to make it, just don't have time to go to town and shower. By the time I got out of the shower, my skin was fire red, burned and itches. I was so light headed and dizzy I was shaking. I have had to give the well water to the cattle now for about a week, it is just bright orange color and it still has the oily firm on top. The cows did not want to drink when I first had to pump from the well.
